2017 EQUINE DENTISTRY SHORT COURSE

COURSE OBJECTIVES:

The courses are designed for Equine Practitioners who want to expand their practice to include basic or advanced equine dentistry techniques. In addition, the practitioner will receive a hands-on approach to learning new techniques for floating procedures and will gain knowledge to proceed into advanced dental procedures.

NUMBER OF STUDENTS:

Course I - Limit 10 students per class
Course II - Limit 8 students per class

CONTINUING EDUCATION:

Each course has been approved for 18 hours of continuing education credit in jurisdictions which recognize AAVSB's RACE approval; however participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education.

For Registration and Additional Information:

INSTRUCTORS

Travis Henry, DVM - Courses I & II Midwest Equine Services, WI

Dr. Travis Henry graduated from Michigan State University College of Veterinary Medicine in 1993. After graduation, he has pursued interests in equine dentistry along with general practice and owned and operated a full service, eight doctor, equine clinic in northeastern Wisconsin. Dr. Henry has been very involved with improvements in equine dentistry and developed the Flexi-Float™, the most advanced mechanical floating system on the market. Dr. Henry provides dental training for several equine practices, conducts veterinary seminars and enjoys dental practice in southeastern Wisconsin. Dr. Henry has completed a dental and oral surgery residency at University of California, Davis and successfully obtained board certification with the AVDC.

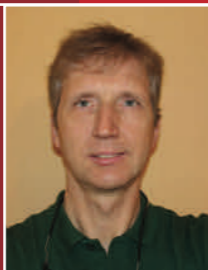

Scott Marx, DVM - Courses I & II Advance Equine Dentistry, CO

Dr. Scott Marx is originally from Eau Claire, Wisconsin. Dr. Marx received a Bachelor of Science degree from the United States Military Academy at West Point in 1981 and served as an Army officer and paratrooper in US, Europe and Asia until 1990. In 1995, Dr. Marx graduated from the Colorado State University College of Veterinary Medicine and Biomedical Sciences and practiced general equine medicine as a partner in a mixed animal practice in Bailey, Colorado. In 2000, Dr. Marx started Advance Equine Dentistry, an equine dentistry exclusive practice. He has taught equine dentistry in the United States, Republic of South Africa and Australia.

Manfred Stoll, DVM - Courses I & II Equine Dental Clinic, Hohenstein Germany

Dr. Manfred Stoll graduated in 1991 from the University Giessen, Germany. Because of his special interest in equine dentistry, he has participated in many important equine dental education programs worldwide over the years. In 2007 he presented his own extraction technique, the "Minimally Invasive Buccotomy with Screw Extraction". Dr. Stoll operates an equine dental clinic focused on endodontic procedures and minimally invasive oral and maxillofacial surgery. In addition to his clinical work, he speaks at international conferences and designs advanced dental tools.

Cleet Griffin, DVM, DABVP - Courses I & II Texas A&M University

Dr. Griffin received a DVM degree from Texas A&M University in 1990. He entered general mixed practice as an associate and eventually worked in ambulatory practice for several years. Dr. Griffin is a Diplomate of the American Board of Veterinary Practitioners. He has been a faculty member of the Department of Large Animal Clinical Sciences at Texas A&M University since 2007. Dr. Griffin works as an equine field service clinician and coordinates an elective course in dentistry. He presents lectures at state and national conferences on equine dentistry and teaches numerous continuing education courses.

COURSE I - 3 DAYS

CLASS SIZE: LIMIT 10 STUDENTS
COURSE I FEE: \$1950.00

This course is designed to provide participants with the necessary knowledge to properly balance the typical equine mouth using hand and motorized instruments. The course will consist of one day of small classroom lectures, one day of working with cadavers and skull models and one day working on live horses.

Day 1: Class Lectures (6 Hours)

- Reasons for Dentistry
- Dental Anatomy
- Examination & Sedation
- Floating Procedures
- Dental Charting
- Dental Instrumentation
- Fees & Marketing

Day 2: Wet Lab w/Cadavers (6 Hours)

- Digital Imaging
- Skull Evaluations
- Comprehensive Oral Examinations
- Comprehensive Floating with Hand & Motorized Instrumentation

Day 3: Wet Lab w/Live Horses (6 Hours)

- Digital Imaging
- Comprehensive Floating with Hand & Motorized Instrumentation

COURSE II - 3 DAYS

CLASS SIZE: LIMIT 8 STUDENTS
COURSE II FEE: \$2250.00

This course is designed for Equine Practitioners who want to expand their dental practice to include more advanced procedures. A basic knowledge and proficiency in equine dentistry is required for this course. It is assumed that the student is familiar with the basics of dental equilibration and the recognition of dental pathology.

This course provides participants with the necessary knowledge to perform advanced equine dental procedures. The knowledge gained will allow Equine Practitioners to provide advanced dental care for their patients.

Day 1: Class Lectures (6 Hours)

- Basics of Equine Dental Pathology
- Digital Imaging (Review of Basics & Interpretation of Radiographs)
- Extractions (Intraoral & Surgical)
- Periodontics (Disease & Treatment)
- Endodontics (Disease & Treatment)

Day 2 & 3: Wet Lab w/Cadavers (6 Hours)

- Skull Evaluations on Cadavers
- Digital Imaging on Cadavers
- Basic Extraction Techniques on Cadavers
- Advanced Extraction Techniques on Cadavers
- Digital Imaging on Live Horses
- Periodontal Procedures on Cadavers
- Restoration Procedures on Cadavers
- Endodontic Procedures on Cadavers
