

# LED Pet Piezo™ Scaler

The **LED PET PIEZO™ SCALER** is a compact piezoelectric scaler. The unit features Auto Gain Control which stabilizes and adjusts power settings for optimal performance. The **LED PET PIEZO™ SCALER** also has a large power dial surrounded by LED lit indicators for readability and easy access. The handpiece has a bright LED light that illuminates the work area for easy use while scaling.

## FEATURES OF THE LED PET PIEZO™ SCALER:

- LED Scaler Handpiece
- Designed to accommodate KLAW™ Tips
- Includes 4 scaler tips
- External Water Source: Inline or Pump

**STRONG PERFORMANCE,  
DEPENDABLE QUALITY**

KLAW™ Tips are ultrasonic instruments ideal for cleaning deep developmental grooves in cat canine teeth and dog premolar teeth. These instruments are specifically designed to cause less tooth damage when cleaning and to increase patient comfort during dental cleanings. The range of KLAW™ Tips were created exclusively for use with the LED Pet Piezo™ Scaler. The tips are coated with Zirconium Nitrate for durability and have ported tips to ensure water is being applied to the area being cleaned. KLAW™ Tips are small and easily changeable onto the piezoelectric scaler handpiece.

## KLAW™ 1:

A universal small instrument with a curved scaler tip designed for root surfaces. This curette design will eliminate hand scaling repetitive motion injuries and is useful for subgingival soft tissue curettage.
